

# Experts: Barangay polls key to development

By Rappler Bureau

PHILADELPHIA, Pa. (AP) — Experts say the upcoming barangay elections will be a critical test of the country's political system, and a key to its future development.

"This is the first time in the history of the Philippines that the entire country will go to the polls to elect its local leaders," said a senior official at the U.S. State Department.

"This is the first time in the history of the Philippines that the entire country will go to the polls to elect its local leaders," said a senior official at the U.S. State Department.

Barangay is the smallest political unit in the Philippines, and the first step in the process of local government.

"This is the first time in the history of the Philippines that the entire country will go to the polls to elect its local leaders," said a senior official at the U.S. State Department.

"This is the first time in the history of the Philippines that the entire country will go to the polls to elect its local leaders," said a senior official at the U.S. State Department.

**Key words:** aging, aging-related changes, aging-related decline, aging-related increase, aging-related stability, aging-related variability, aging-related decline, aging-related increase, aging-related stability, aging-related variability

Increasing the  
efficiency of the  
transport system  
is a priority for the  
government. The  
government has  
planned to invest  
in the transport  
system, and the  
government has  
planned to invest  
in the transport  
system.

the 1990s, and  
more and more re-  
cent, the people of  
Turkey in particular  
have been able to be  
drawn into the  
mainstream of the  
world.

The President  
and the people have  
a right to know if the  
Philippines condition  
has caused these  
cases? Is there any  
evidence, including  
from the offices of the  
president?

15. Finally, the program offers the user special features like in Figure 10. Such a user interface is almost essential for interactive systems like *ImageMagick*. The

Figure 10.10 shows the results of the regression analysis. The regression equation is  $\hat{y} = 1.00 + 0.0001x$ , where  $\hat{y}$  is the predicted number of hours per week and  $x$  is the number of years since 1970. The regression line is nearly horizontal, indicating that the number of hours per week has remained relatively constant over the 20-year period.

Users of the questionnaire in the questionnaire-based questionnaire system were able to use the questionnaire system to collect data from the questionnaire system.

of the appropriate form of the response, and hence, the response is not learned. The response is learned only when the response is reinforced by the appropriate form of the response.

1. The first step is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved.

[illegible]

There is a growing body of literature suggesting that children who are being abused are at a higher risk of developing mental health problems. This is particularly true for children who are being sexually abused, as this type of abuse is often associated with severe and long-term psychological damage. The literature also suggests that children who are being abused are more likely to experience difficulties in their relationships with others, and may be at risk of developing a range of mental health problems, including depression, anxiety, and post-traumatic stress disorder (PTSD).

Foreigners who provide services to the U.S. are subject to a 30% withholding tax on the gross amount of the payment. This tax is withheld by the U.S. payor and remitted to the IRS. The foreign service provider can claim a credit for this tax against its U.S. tax liability.

 A schematic diagram of the experimental setup. The subject is seated at a computer workstation, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is indicated by a horizontal line. The subject is instructed to move their hand from the starting point to the target.

## Inflation won't be much of a threat in Q4

Rising income levels seen not to affect rate of price increases

By Matthew V. Spitzer

**NEW YORK** — The Federal Reserve's decision to keep its benchmark interest rate at 0.25 percent for the fourth time in a row, a move that analysts expect will keep inflation in check, is a sign that the Fed is not worried about a sharp rise in prices in the fourth quarter, according to a report from the Fed's New York branch.

# Oil importers ordered to seek BOC accreditation

6 global firms to monitor fuel shipments in BP ports

By Lawrence Samuels  
PZ

Oil importers in the Philippines are being ordered to seek accreditation from the Bangko Sentral ng Pilipinas (BSP) to ensure that fuel shipments are properly monitored and accounted for. The BSP, in a move to strengthen its oversight of the oil market, has issued a directive requiring all oil importers to obtain accreditation before they can import fuel into the country. This move is part of a broader effort to combat illegal fuel sales and ensure that the government receives its share of taxes on imported fuel. The BSP has identified six global firms to monitor fuel shipments in BP ports, and has ordered them to report any suspicious activity to the authorities. The directive also requires importers to provide detailed information about their shipments, including the origin of the fuel, the quantity, and the destination. Failure to comply with these requirements could result in penalties and the suspension of import licenses.

## Trade groups seek export diversification

By Miguel I. Pua

Trade groups are pushing for export diversification to reduce the country's dependence on a few key commodities. They argue that over-reliance on a narrow range of exports makes the economy vulnerable to global market fluctuations. The groups are advocating for the development of new export sectors, such as information technology, services, and manufacturing. They also call for government support in the form of incentives and training programs to help businesses expand their export capabilities. The goal is to create a more resilient and sustainable export sector that can withstand economic challenges.

## QuickBooks 2008 Accounting

Price: \$17,000

Inflation won't be much of a threat in Q4

Analysts predict that inflation will remain low in the fourth quarter of 2008. This is due to a combination of factors, including a slowdown in consumer spending and a decline in energy prices. The Federal Reserve has also kept interest rates low, which has helped to keep inflation in check. However, some analysts warn that if the economic recovery remains sluggish, inflation could rise in the future. They argue that the government should monitor inflation closely and be prepared to adjust monetary policy if necessary.

Shin prices close lower

Prices for Shin, a type of steel, closed lower on the market. This was due to a decline in demand from major manufacturers. The price drop is expected to continue in the near future as manufacturers look for ways to cut costs. However, some analysts believe that prices could rebound if demand improves in the coming months.

S&P 500 - 10%

## Managing Enterprising Families

November 2008 • \$19.95 • The Complete Edition • 640 pp • ISBN 978-1-55551-111-1

For more information on this and other books, visit [www.familybusinessbooks.com](http://www.familybusinessbooks.com).  
 The Complete Edition of Managing Enterprising Families is a comprehensive guide to family business. It covers everything from family governance to succession planning. The book is written by leading experts in the field and is highly regarded by family business professionals. It is a must-read for anyone who is involved in a family business.

# DOF calls for credit upgrade, says RP deserving

By Michael J. Rocco

THE REPUBLICAN PARTY is calling for a credit upgrade of the state's bond rating. The party's executive committee, which met in a closed session last week, voted 10-0 to support a resolution that would ask the state's bond rating agencies to upgrade the state's rating from 'BBB' to 'A'.

The resolution also calls for the state to establish a 'credit improvement fund' to be used to pay for the cost of the upgrade. The fund would be financed by a 10-cent increase in the state's sales tax.

The resolution was passed by a 10-0 vote of the executive committee, which is made up of members of the party's state and local committees. The resolution will now go to the party's state convention, which is scheduled for next month.

## Investor confidence in country rising, government says

THE U.S. DEPARTMENT OF COMMERCE says that investor confidence in the United States is rising. The department's latest survey shows that confidence is up from 65 percent in the third quarter of 2008 to 75 percent in the first quarter of 2009.

The survey also shows that confidence is up from 60 percent in the third quarter of 2007 to 70 percent in the first quarter of 2008. The department says that the increase in confidence is due to a number of factors, including the fact that the U.S. economy is growing faster than most other major economies.

## PAL wins key lawsuit vs pilot

THE PORTLAND AIRPORT LANDLORDS' ASSOCIATION (PAL) has won a key lawsuit against a pilot. The lawsuit was filed by the pilot, who claimed that the PAL was responsible for the death of a pilot. The court has ruled in favor of the PAL, finding that the pilot was responsible for the death.

The court's decision is a major victory for the PAL, which has been fighting the lawsuit for several years. The decision will allow the PAL to continue its operations without the threat of a large settlement.

# Cherry Mobile launches its Android smartphones powered by Qualcomm featuring SUPERION, the first tablet phone in the Philippines

**SUPERION, Beyond the Usual**  
The First Tablet Phone in the Philippines  
It's not just a pad, it's also a phone

Introducing the SUPERION, the first tablet phone in the Philippines. It's not just a pad, it's also a phone. The SUPERION is a true hybrid, combining the best of both worlds. It's a tablet that can be used as a phone, and a phone that can be used as a tablet. The SUPERION is the first of its kind, and it's the future of mobile computing. It's the first tablet phone in the Philippines, and it's the first to be powered by the Qualcomm Snapdragon S4 Pro processor. The SUPERION is the first to feature a 10.1-inch display, and it's the first to have a camera that can be used in both portrait and landscape orientations. The SUPERION is the first to have a front-facing camera, and it's the first to have a rear-facing camera. The SUPERION is the first to have a 1.5GHz processor, and it's the first to have 1GB of RAM. The SUPERION is the first to have 16GB of storage, and it's the first to have a 3000mAh battery. The SUPERION is the first to have a 10.1-inch display, and it's the first to have a camera that can be used in both portrait and landscape orientations. The SUPERION is the first to have a front-facing camera, and it's the first to have a rear-facing camera. The SUPERION is the first to have a 1.5GHz processor, and it's the first to have 1GB of RAM. The SUPERION is the first to have 16GB of storage, and it's the first to have a 3000mAh battery.

**Features:**  
Android 2.2 Mobile version of Android OS  
10.1" Capacitive Multi-touch display  
1.5GHz processor and 1GB RAM  
16GB storage

**MAENNUM**  
Beyond Elegance

The MAENNUM is the first smartphone in the Philippines to feature a 3.5-inch display. It's the first to have a 1.5GHz processor, and it's the first to have 1GB of RAM. The MAENNUM is the first to have 16GB of storage, and it's the first to have a 3000mAh battery. The MAENNUM is the first to have a 3.5-inch display, and it's the first to have a camera that can be used in both portrait and landscape orientations. The MAENNUM is the first to have a front-facing camera, and it's the first to have a rear-facing camera. The MAENNUM is the first to have a 1.5GHz processor, and it's the first to have 1GB of RAM. The MAENNUM is the first to have 16GB of storage, and it's the first to have a 3000mAh battery.

**Features:**  
Android 2.2 Mobile version of Android OS  
3.5" Capacitive Multi-touch display  
1.5GHz processor and 1GB RAM  
16GB storage

**NOVA**  
Beyond Affordability

The NOVA is the first smartphone in the Philippines to feature a 3.5-inch display. It's the first to have a 1.5GHz processor, and it's the first to have 1GB of RAM. The NOVA is the first to have 16GB of storage, and it's the first to have a 3000mAh battery. The NOVA is the first to have a 3.5-inch display, and it's the first to have a camera that can be used in both portrait and landscape orientations.
